

Bylaws Policy for Graduate Programs in Professional Schools

Approved by Graduate Council on June 10, 2003

In the case of graduate programs that are offered by faculty in a school or college that is organized as a single department, the graduate program bylaws may be incorporated, as a separate section, into the bylaws for the school or college, and are subject to review by Graduate Council. All other administrative matters will follow the procedures employed for departmentally-based graduate programs.
